**ACADEMICIAN E. V. OPPOKOV – THE FOUNDER OF NATIVE  
SCIENTIFIC RESEARCH IN THE FIELD OF HYDROLOGY  
(THE 145 TH ANNIVERSARY OF HIS BIRTH)**

**Summary**

Evgeny Oppokov – native scientist in the sphere of hydrology and hydrogeology, one of the founders of the Ukrainian science of hydrology, Ukrainian Academy of Sciences (since 1929.), Academician of Academy of Agricultural Sciences (since 1935.). He also created the first in Ukraine research department of hydrology at the Kiev Polytechnic Institute, which in 1926 was reorganized into the Research Institute of Water Economy of Ukraine, of which he was until his death (1937). Author of over 500 scientific papers on physical geography, hydrology, hydraulic engineering, land reclamation, knowledge about swamp and peat, published in Russian in Ukrainian and foreign languages. Many of them are now used in practice and have not lost their relevance. Unfortunately, the name of the scientist was forgotten, and his scientific works were banned and removed from the libraries.

**Key words:** *Oppokov E. V. – native scientist in the sphere of hydrology, hydrogeology, swamps, meteorology, drainage of swamps, river valleys, Polesie.*
