**SCIENTIFIC AND ORGANIZATIONAL ACTIVITY OF ACADEMICIAN
K. G. VOBLIY IN THE CONTEXT OF THE ESTABLISHMENT AND
DEVELOPMENT OF THE UKRAINIAN ACADEMY OF SCIENCES
(ALL-UKRAINIAN ACADEMY OF SCIENCES)**

Summary

To the names that created the history of the formation and development of the National Academy of Sciences of Ukraine, the academician Konstantin Grigorovich Vobliy – a scientist of economics and geography, the founder of sugar-beet cooperation. Some aspects of the activities of the scientist are covered in the scientific publications M. Kikot, M.V. Shevchenko, N.Y. Romanyuk and others. However, in these publications, scientists did not set out to disclose the scientific and organizational activities of K.G. Vobliy during his work at the Ukrainian Academy of Sciences. In view of this, the author set out to comprehensively cover these achievements of the scientist. The methodological basis of the study was the general scientific principles of historical authenticity, scientific objectivity, complexity of sources and methods of analysis and synthesis, problem-chronological and source-analysis analysis.

The method of historical and scientific analysis considered the poorly researched page of the creative biography of Konstantin Grigorovich Vobliy (1876 –

1947) – one of the founders of sugar beet industry and cooperation, a scientist economics and geography, the organizer of branch scientific research. The scientific-organizational activity of a scientist in the Ukrainian Academy of Sciences (since 1921, the All-Ukrainian Academy of Sciences) is analyzed. The role of K.G. Vobliy as Vice President of UAN has been determined, it can be argued that he owns effective decisions on the development of the charter of an academic institution, and the holding of meetings of the Presidium of the UAN. The academic contribution of Academician K.G. Vobliy in various structural units of the Academy was also proved: the department of trade and industry of the social and economic department, the board of the academy from this department, the permanent commission for the study of natural resources of Ukraine in the physical and mathematical department, the Institute for the study of economic con Ukrainian economy and national economy, Presidium of the society of economists. It was found that the scientist includes scientific developments on the problems of economy, in particular the development of industry in Poland and Ukraine.

Key words: *K.G. Vobliy, Ukrainian Academy of Sciences, economics, social and economic department, commission, institute.*
